WASHINGTONVILLE

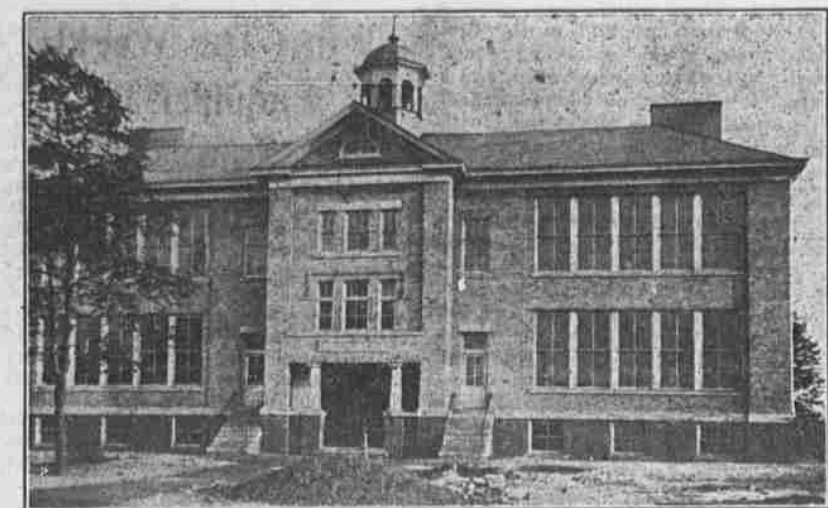

Bright, Breezy Paragraphs Telling The Happenings in the Village on Mahoning's Southern Border.

By Peter M. Herold

NEW SCHOOL BUILDING

The new school building is built upon the site of the old brick structure that was destroyed by fire August 3, 1911. The present building measures 88 by 70 feet and is set back 50 feet from the street. It contains two floors, and a basement 9 feet high which can be converted into an auditorium with a seating capacity of more than 400. The building is heated by four Bartlett Bros. heaters in the basement and has a ventilating system by which the air in each room can be changed six times an hour. Frank Carnes is the janitor.

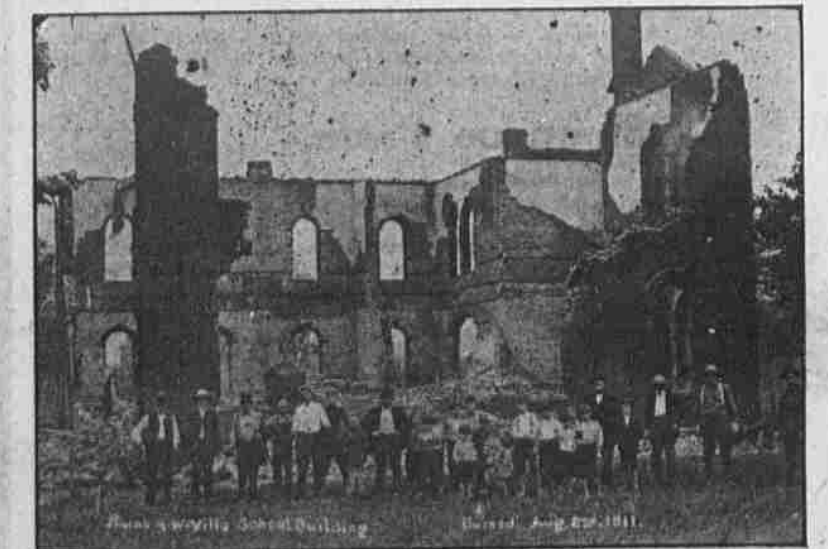

The first floor contains two grade rooms and an assembly room with 300 seats, and can be partitioned into two additional school rooms should the school district increase its population. On the second floor are four class rooms, superintendent's office, board room, library and teachers' rest room.

Washingtonville's New School Building

The structure is built of reinforced concrete, paving brick and buff brick veneering, and is practically fireproof. The contract price was \$21,108, and the furnishings about \$1,400. The heating system cost \$1,793.75. The bell was recast from the material left from the old one that was cast at the same foundry for the old structure built there in 1871, and the recasting cost only \$266. The building is provided with four fire escapes with concrete steps and iron handrailing, all under cover.

After the destruction of the old building a special election was held Tuesday, September 12, 1911, for or against the issuance of \$20,000 worth of school bonds for erecting a new school building. There were 118 votes polled, 88 for to 29 against. After frequent special sessions and consulting the prosecuting attorneys of both counties, the board of education decided to build after the plans and specifications submitted by architect A. Cameron and approved by the state board. By using the \$9000 of fire insurance, the board concluded that they could "make ends meet" by selling only \$15,000 worth of the bonds to Well & Roth, brokers of Cincinnati.

The theme at the Lutheran church Sunday night was founded upon the parable of the sower who went out to sow his seed, emphasis being placed upon the 7th verse of the 8th chapter of Luke's gospel, which reads: "And some fell among thorns, and the thorns sprang up with it and choked it."

The pastor's application was both lucid and self-evident. The discourse was deserving of a larger audience, for Rev. Gross is a close student and says nothing at random. The next public service, on the 15th of this month, should be well attended. Children's day is always well attended by parents and the children.
